oeFun, Inc. Announces Tilt Me for Android

AUSTIN, TX, Dec 10, 2009 – Tilt me! Remember when games were simple and fun? oeFun, Inc., an interactive entertainment development company, announced today that Tilt Me, a fun and challenging maze game is now available for the Motorola Droid via the Android Market. Designed to take advantage of its high resolution screen, Tilt Me features OpenGL 3D graphics and utilizes the accelerometer to create a “real” 3D effect.

Designed with simplicity in mind Tilt Me does not feature options or menus. It is truly pick up and play leaving you with one option - playing the game.

About the Android Market:

Tilt Me is available exclusively through the Android Market. To purchase this app simply access the Android Market on your handset.

About oeFun:

oeFun, Inc. is an independent game development studio in Austin, Texas. The company is dedicated to making fun and innovative titles for a variety of platforms, including the iPhone, iPod touch, Android, Nintendo DS and Wii. oeFun’s mission is to become synonymous with fun, quality and innovation while making some of the best games in the video game industry.

oeFun was founded in January 2005, by Ian Dunlop, a career game developer with 22 years experience in the industry. Dunlop has a long resume, his talent having been integral in the development of several world-class titles.
